

# About us

RingCentral provides a robust, easy-to-manage, mobile-enabled cloud business phone system.

## Corporate Overview

Since 2003, RingCentral has been breaking down the business communications barriers that have been created by complex hardware and unnecessary costs. RingCentral delivers innovative cloud business communications solutions that free people to work the way they want and stay ahead of the evolving needs of the business. Delivered on a state-of-the-art cloud infrastructure, RingCentral's cloud communications solutions help over 300,000 businesses globally.
