

RINGCENTRAL OFFICE

The Leading Cloud Business Phone System

With unmatched functionality, quality, reliability and value.

Watch the video

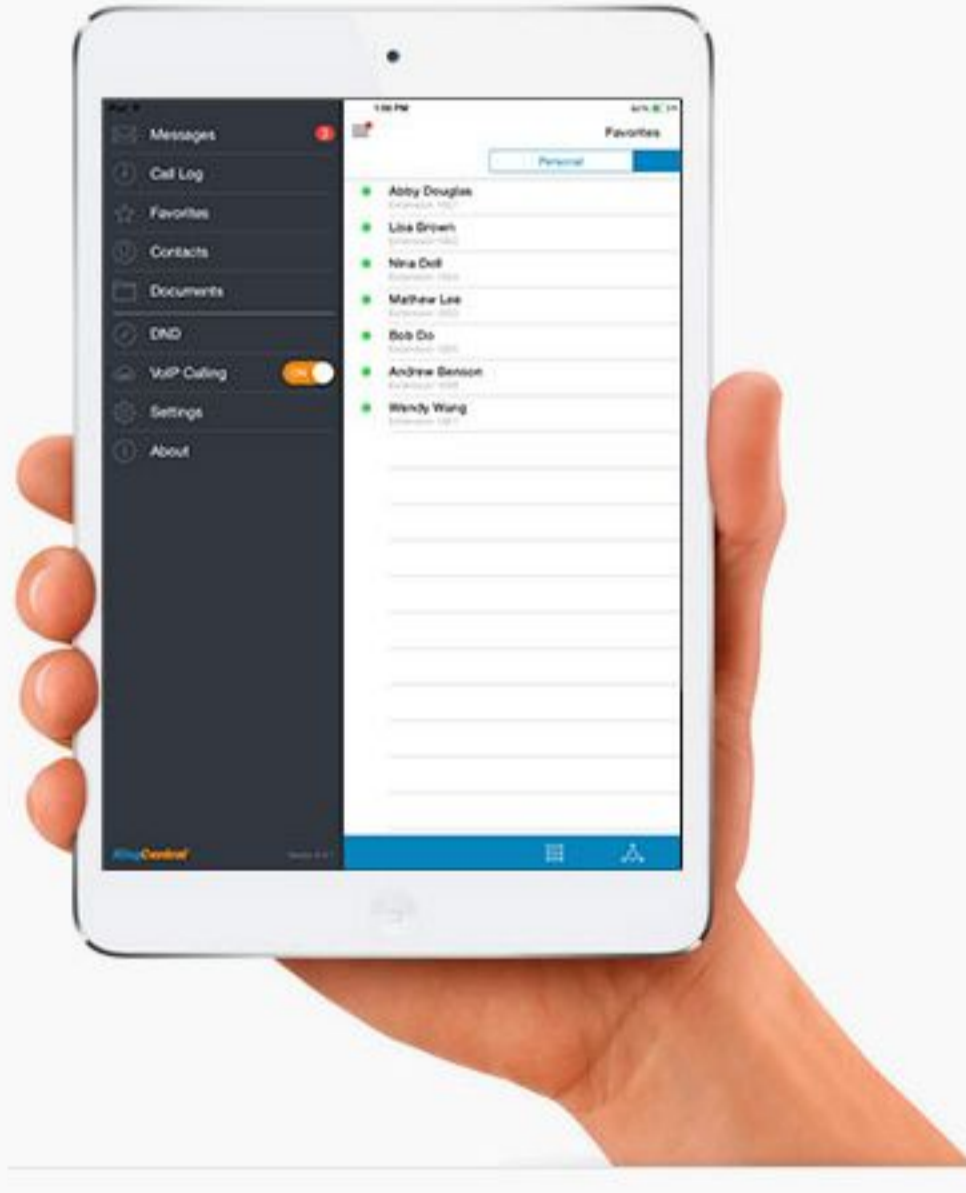

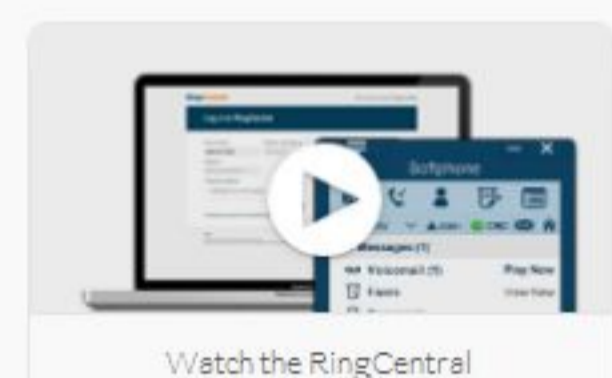

What is a phone system in the cloud?

Discover how easy it is to migrate your business phone system into the cloud.

Voice. Conferencing. HD video meetings. One phone system.

Optimise your business communications with enterprise-class voice, fax, conferencing, mobile apps, call handling and BYOD capability. Your phone system seamlessly integrates with Salesforce, Zendesk, Microsoft Office, Box, Dropbox, and Google Drive.

Easy, saves time and resources.

Your cloud phone solution doesn't require costly and complicated technical specialists. Admins can quickly and easily manage users, locations, and devices—anywhere, anytime. Users are empowered to control many of their own settings.

Works across all locations

The RingCentral solution is highly adaptable and customisable. You can manage multiple locations and mobile workers with your one system and receive one convenient monthly bill.

Read about our Platform

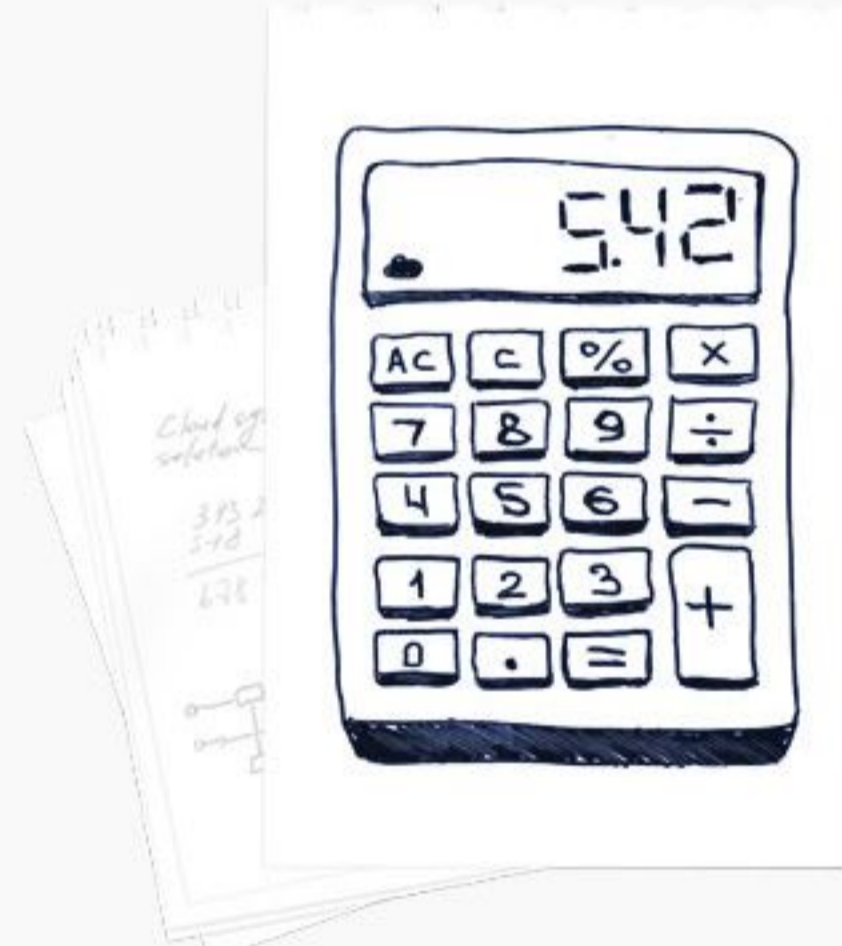

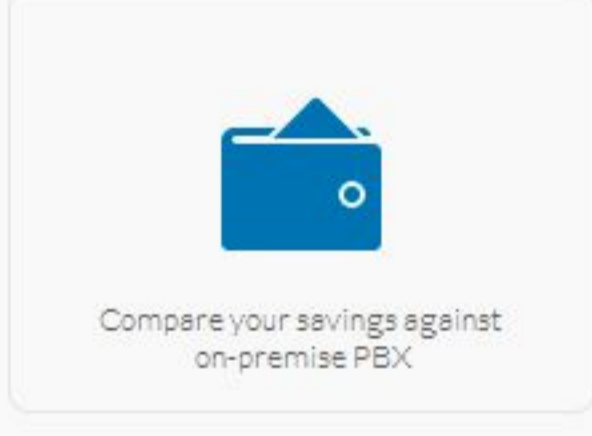

Mobilised business communications - BYOD ready.

It's simple to integrate smartphones and tablets. The RingCentral Mobile Apps turns BYOD devices into business phones. You can manage your entire system whenever, wherever you want.

Substantial savings in the Cloud.

Save up to 60% on your monthly phone expenses. There's none of the capital equipment or hardware costs associated with legacy phone systems. All-inclusive pricing includes a rich feature set with low, predictable costs.

Plans & Pricing

You get all the features you need for one low monthly price.

Eliminate setup & ongoing maintenance.

Phones arrive in days, not weeks—preconfigured, fully provisioned, and ready for calls. Just plug phones into a high-speed Internet connection to get started. Since your system is in the Cloud, there's no hardware to maintain, updates and new features appear automatically.
